

**For Immediate Release**

**Cipher Dynamics to Exhibit at Microsoft Convergence 2012**

*Featuring services that span from strategy consulting to implementing, development and deployment of IT solutions specifically around the Microsoft Dynamics™ suite of products.*

**New York, NY USA – Feb 28, 2012** – Cipher Dynamics IT Services (Pvt) Ltd., a Microsoft Dynamics™ IT enabled services and Business Process Outsourcing (BPO) firm will exhibit at this year's Microsoft Convergence, a premier Microsoft event held in Houston TX March 18-21, 2012. At the event, Cipher will have the opportunity to collaborate with Microsoft Dynamics users and customers to develop long standing business relationships.

Cipher Dynamics will exhibit at the event to feature their services that span from strategy consulting to implementing, development and deployment of IT solutions specifically around the Microsoft Dynamics™ AX, Microsoft Dynamics™ GP and Microsoft Dynamics™ CRM and Microsoft Collaboration (SharePoint) and Business Intelligence (BI) solutions. By combining strategic insight, deep industry expertise, and an agile, global delivery model, Cipher has created a wholly unique approach that leverages innovation and a global onsite-offshore delivery model to provide the best return on investments for Microsoft Dynamics partners and their customers.

To meet their customers' needs, Cipher offers lower development costs, without sacrificing quality by providing a blend of local and offshore resources optimized for the client's specific needs while reducing the effective cost of the solution without sacrificing quality or local relationships. At Convergence, Cipher will extend an exclusive one time "test drive" of up to 40 hours of free services to customers and their business partners to enable them to assess Cipher's competence of Microsoft Dynamics business applications. For a full explanation of conditions please inquire at the Cipher booth # 251 at the Microsoft Convergence Expo.

The Microsoft Convergence conference will feature product examples, speakers, detailed product demonstrations and hands-on learning sessions. Convergence offers Cipher Dynamics an opportunity to reach over 10,000 partners, team members and industry experts and make lasting connections within the Microsoft community.
